

## Announcing Updated EnglishConnect Resources

Updated digital versions of EnglishConnect materials are now available in English on the Gospel Library app and ChurchofJesusChrist.org. The updates reflect improvements to support learners, teachers, and leaders. Examples include resources for daily practice, translation support, and principles of learning by study and by faith. Learn more at [englishconnect.org/updates](https://englishconnect.org/updates).

These updates are being translated into more than 40 additional languages. Local leaders will be notified when revised digital and print versions are available in their local language. Members and missionaries should continue to use the current versions of EnglishConnect materials until the updated editions become available.
